**FOR IMMEDIATE RELEASE:**

**Ocean Alexander Announces Debut of New 100' Motoryacht.**

KAOHSIUNG, TAIWAN – July 17, 2014 – Ocean Alexander announced the planned debut for the new Ocean Alexander 100 Motoryacht at the 2014 Ft. Lauderdale International Boat Show.

The new Ocean Alexander 100, designed by Evan K. Marshall, is a natural next step from Ocean Alexander's highly successful 90 motoryacht. The new OA 100 has been designed with chartering as a high priority. It incorporates a galley that is a stand-out in the industry for this sized vessel and provides the space required for a chef to prepare true gourmet meals. Overall, the crew quarters has been greatly enlarged, as well as the addition of strategic storage space throughout the vessel. The OA 100 has formal dining for eight while maintaining an enormous salon seating space. There's a wet-bar in the salon in addition to a day head on the main deck for ease and convenience. Forward of the galley is a very large settee area for relaxed seating and casual dining.

The OA 100 continues with OA's highly successful full-beam master stateroom arrangement with his-and-her heads. The forward VIP includes an abundance of storage and hanging locker space. Between the VIP and Master, are two additional guest staterooms with twin berths that convert to a queen. All staterooms are en-suite, providing guests with privacy and convenience.

The vessel is available with an open bridge arrangement, which allows for the largest open deck area for entertaining and storage of watercrafts of any vessel in its class. The vessel is also available with an enclosed skylounge arrangement with a wonderful new layout by Evan Marshall that adds a true second salon area, complete with wet-bar and day head.

"With the recent successful sales of three new Ocean Alexander 90 yachts in the first quarter of 2014, we feel very confident that this new model will be very well received," states Richard Allender, Director of US Operations. "Several clients have approached us for something new in this size due to limits in dock space, cruising needs, or a variety of other reasons. This new OA 100 will provide those customers with luxuries usually found on larger megayachts while allowing them to keep the yacht in more convenient locations."
