THIS IS A REVOLUTION

Ocean Alexander and Evan K. Marshall have once again partnered together to masterfully combine world-class engineering with extraordinary design. Introducing the 84R – the latest awe-inspiring addition to our Revolution line of luxury yachts.

We don't believe in taking shortcuts when creating a masterpiece. This is evident in every aspect of the 84R. The vertical bow expands living space without compromising the incomparable performance and efficiency we're known for. Exotic-wood panels conveniently hide the vessel's ample storage space. And enormous windows in the salon give commanding views of the endless stretches of sea around you.

The impressive master stateroom boasts phenomenal views of its own, and the finishings in the stone-clad master head are pure perfection. Both the skylounge and flybridge options provide you with the ultimate entertainment space. Each are complete with comfortable seating areas, a wet bar and a custom-made grill. And the glass-enclosed beach club serves as the perfect hideaway for a relaxing afternoon lounge or a satisfying late-night cocktail.
