For those with a seafaring spirit, few things are more peaceful than the serenity of the open sea. The seclusion calms you. The intimate moments of solitude shared with family and friends bring you a fulfilling comfort. The surrounding stretches of water grant you a privacy that cannot be obtained anywhere else on earth. It’s exceptional moments like these that inspire Ocean Alexander to craft a vessel that not only grants you with an exhilarating nautical experience, but the ultimate luxury of all — meaningful, unforgettable moments you’ll cherish for the rest of your life.

We understand your passion for the water because it’s ours too. This passion drives us to constantly recreate our designs and elevate our yachts to an unmatched level of elegance and style. Crafted by world-renowned designer Evan K. Marshall and perfected by our team of expert engineers, Ocean Alexander’s 112 is tailored to your specific desires — redefining what true luxury can be by making every experience uniquely yours.

The 112 isn’t just a yacht — it’s a catalyst for truly exceptional experiences. Unforgettable moments lie ahead.
Step onboard. Welcome to your new sanctuary. The soles of your feet against this smooth, warm deck are just the beginning of the sensations about to sweep you away on the Ocean Alexander 112.

We’ve engineered surprising details that make life on the 112 pure pleasure. On the main deck, a hidden motorized swim step can gently deliver you straight into the water, and a fold-down bulwark becomes a private balcony for after-dinner stargazing.
In the salon, doors glide open silently with just a touch, almost as if they don’t exist. The large flat-screen TV folds down from the ceiling, so you can count on generous storage inside the custom-fitted exotic-wood cabinetry.

The salon boasts a big starboard view, providing you with a breathtaking vista as a backdrop for your journey. Just picture yourself entertaining in the salon while overlooking towering limestone cliffs dotted across the sea …
More than 24 feet of beam translate into an immense view and generous floor space throughout the main deck.

High ceilings and a gleaming black walnut sole set off contemporary custom-made furnishings in the dining room. We’ve customized drawers to nest and protect a full set of china and crystal. There’s also a wine fridge built into the sleek cabinetry to starboard. To port, glass doors part silently to reveal a bulwark that lowers gracefully to become a balcony. Lounging in easy chairs or standing at the rail, you’ll have the hypnotic sensation of gliding right over the water.

The custom dining table is a showpiece of precious woods that easily seats 10 or holds an enormous cocktail buffet. Here, you’ll host an intimate dinner overlooking the crystal waters of the Caribbean Sea or serve cocktails to a handful of your closest companions as they stand in awe of the magnificent view. The 112’s entertainment potential is stellar.
Respect the chef and the owner will be happy. We insist on world-renowned appliances for our galleys, including brands like Dacor® and Miele™. We make sure that provisioning and food preparation rule in the galley, with expanses of stone countertop that can facilitate your chef’s culinary prowess.

You can choose to make your galley exclusively the territory of your chef, or we can build in a beautifully appointed casual dining area. Whatever your dream is, we’ll work with you to make it a reality.
You claim the forward deck with your own private entrance to a wide-open stateroom. More than half the cabin offers one huge view thanks to wraparound windows. Tucked away is a raised settee and table, perfect for enjoying morning coffee or a nightcap.

To port of the comfortable berth, a night head with its own sink hides behind an exotic-wood door in case you’d rather not turn on lights or use the stairs to the master head in the middle of the night.

The master suite is rich with custom cabinetry, including walk-in lockers and a private vanity with a backlit makeup mirror. These magnificent views and dramatic windows change with one touch of a button, when motorized shades whisper into place and give you complete privacy in an already tranquil setting.
Four steps down from the king berth is an enormous private bath suite with both a spa tub and marble-clad shower. Spacious his-and-hers vanities, backlit mirrors and costly fixtures make this private spot a true luxury.

*Finishes here are perfection.*

A frosted-glass door opens to reveal a water closet with a bidet, a head and abundant cabinetry for storage. His-and-hers walk-in closets feature ranks of drawers, each backlit to make contents more visible at night.
VIP STATEROOM

The 112 proves its devotion to your guests with four private guest staterooms below decks. These beautifully appointed accommodations impress with their quiet custom finishing touches and generous storage space. Cedar-lined hanging lockers are standard, as are private en-suite heads.
TWIN STATEROOMS

Our twin staterooms are fitted with hallmark Ocean Alexander exotic-wood cabinetry and opulent stone or marble in their matching private heads. Fabrics and finishes rival the master suite for world-class luxury.
Atop the bow lies an ideal spot for luxurious sunbathing and pure, restful relaxation. The large sun pad, spacious enough for three, offers more than enough room to soak up the sun — as well as to take in the magnificent 180-degree view.
PORTUGUESE BRIDGE SEATING

Forward of the bridge is the perfect location for enjoying sea, sun and good company. Three comfortable settees sit at a prime area above the main deck, providing yet another space to sit back and enjoy your surroundings.
The 112’s bridge deck gives your captain a high 180-degree view of seas and conditions. Set apart from the owners and guests, the command center features two watertight access doors for ease of access and docking. From the bridge, it’s clear the 112 is built for smooth sea handling.

Standard on an Ocean Alexander helm is the finest helm chair, made by Stidd®. Although lavished with our signature exotic woods, soft leathers and gleaming soles, this bridge is completely focused on functionality for your captain.

A full navigation package complements the breathtaking view. World-renowned designer Evan K. Marshall has reimagined the console and display pod for more ergonomic ease, enhancing the piloting experience.
Just inside the aft bridge deck is a private, intimate lounge made for after-dinner conversation, early-morning coffee or late-night lingering. With its own bar, fridge and beautiful views, it’s a break in the action tucked just behind the command post. When you’re ready to leave your quiet respite, a spiral staircase takes you down to the dining room and main salon.
AFT BRIDGE DECK

A slice of quiet lifted above the main deck, this can become a shady oasis thanks to stowable mesh screens, giving you unparalleled (and quite cool) solar protection. If it’s sun you’re after, this is the place to catch it. And if you need to store water toys, there’s more than enough space to do so. This area is large enough to enjoy sun, shade and a fully outfitted wet bar, fridge and barbecue. This is where you’ll have a cocktail while overlooking a fiery sunset over the horizon or sip on a cup of coffee as the sunrise lights up the endless stretches of sea around you.
At the top of the 112 is an airy deck that may be one of the most secluded spaces aboard the boat. When the 112 is docked in a busy port, this spot is invisible to any foot traffic below. You can easily spend hours soaking in its jetted tub, lying on adjacent sun pads or snacking at its intimate dining table.

It’s the ultimate vantage point from which sky and sea unfold around you.
